What makes MTK II special?

	MTK	MTK II
Performance	51-CH -158dBm	66-CH -165dBm
Battery Life	32hrs	42hrs
Fix Time	33sec	15sec

Better Performance
Longer Battery Life
Extraordinary Fix Speed

Assisted GPS

What is A-GPS?

A-GPS is a system where outside sources, such as an assistance server and reference network, help a GPS receiver boosts performance beyond that of the same receiver in a stand-alone mode by downloading the almanac data from an assistance server.

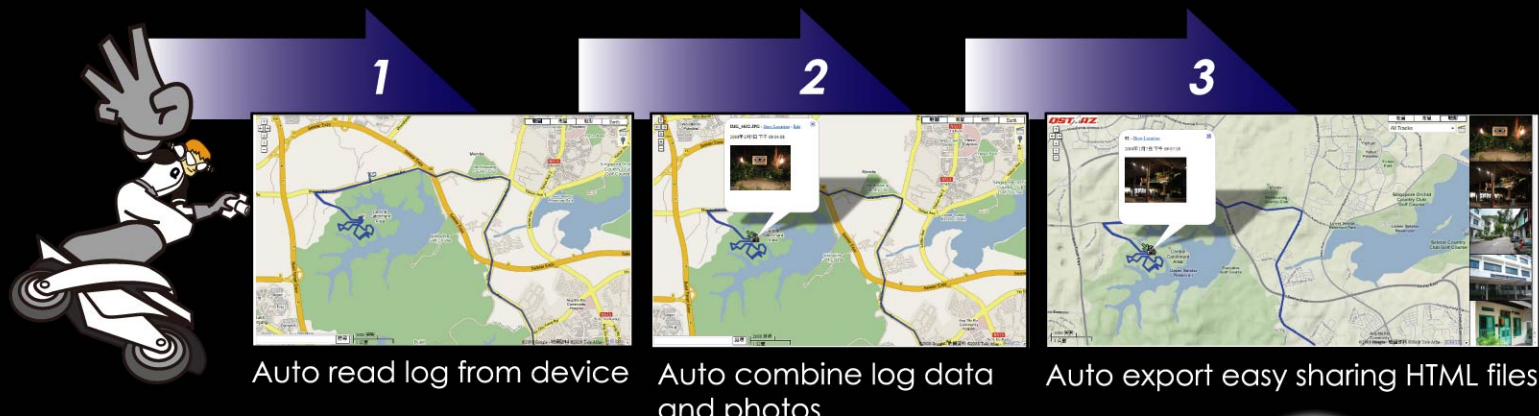

Almanac Data

* 15sec only applies for the fix speed of warm start
* Each A-GPS download is valid for 7 days
